If the customer would like to port their current phone number to ALLO:

- Please do your best to get the current company account number and pin number.
- If it's not available during the sales call, please let the customer know that we need this information as soon as possible to keep your installation on schedule and if we don't receive it, it may delay installation timeframe.
- Also letting the customer know to not cancel their current service until ALLO is installed.

Site Survey Best Practice:

- It is best practice to avoid when possible and see if customer's concerns can be addressed by the tech at install.
 - Remind the customer that if they are uncomfortable with how install would need to be done they can still call it off at that time.
- If we need to do a Site Survey first, please schedule an install out 3-4 business days out and then email the Compax Support Team (**RESCompaxSupport@allofiber.com**) to let them know to convert that install to a site survey.
- They will put in a request to the Compax team to change the appointment to a Site Survey and then reach out to customer after Site Survey to schedule an install.

SUBMIT ORDER

- You will receive a message that **Your ALLO Pre-Order is Confirmed**

Your ALLO Pre-Order is Confirmed!

Get ready for a whole new kind of internet experience. With fiber-fast speeds, rock-solid reliability, and a local team that's always here for you, you're going to feel the ALLO difference from day one.

What's next?

1. Fiber Construction

While the ALLO team continues to build the fiber network in your area, you can keep up with progress on the [construction map](#).

2. Keep Track of Your Order

An email confirmation with all of these details is in your inbox.

3. Connect with Us

Don't be shy – give us a follow! While you wait for your fiber installation, stay in the know about all things ALLO by following us on [social media](#). We may occasionally post the latest trends, but our main goal is to keep you in the know and educated about the latest ALLO Fiber happenings.

4. Your Installation

As construction is completed in your neighborhood, we'll reach out to schedule your installation day and time. Check out our [online guide](#) to find out all you need to know about your soon-to-be internet, managing your service, and how to understand your first bill – but don't worry, that doesn't start until installation day!

5. Stay in Touch

If you have any questions about your order or what to expect next, we've got your back. Just give us a call at 866-481-2556—we're happy to help.

Stay tuned for more info coming your way soon!
